Objective

A dedicated and enthusiastic Computer Science student with a strong foundation in software development and web technologies. Experienced in developing responsive, user-centric interfaces using React.js, HTML, CSS, and JavaScript. Eager to contribute to dynamic projects, continuously enhance technical expertise, and deliver impactful digital solutions.

Projects

Smart Fleet Tracker

Final Year Project / May 2025

DHA Suffa University, Karachi

- Developed and managed the complete frontend interface for a real-time smart vehicle tracking system.
- Implemented interactive dashboards and live vehicle tracking features using React.js and modern UI libraries.

Hotel Management System

OOP Course Project

- Designed and developed a comprehensive hotel management application utilizing Object-Oriented Programming principles in C++.
- Incorporated booking, customer record, and billing modules within the system.

Traveling Agency Website

IICT Course Project

- Created a fully responsive travel agency website using HTML, CSS, and JavaScript.
- Integrated tour package listings, contact forms, and interactive user interface components.

Calculator Application

C Language Project

- Built a command-line based calculator capable of handling fundamental arithmetic operations.
- Applied control structures, functions, and modular programming techniques in C.

Education

Bachelor of Science in Computer Science

Oct 2021 – Jul 2025

DHA Suffa University, Karachi

- Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Web Application Development, Database Systems, Software Engineering.

Skills & Tools

Languages & Technologies: React.js, HTML, CSS, JavaScript, Python, SQL, C, C++, Java

Tools: Git, GitHub, Microsoft Office, VS Code

Soft Skills: Strong communication, teamwork, problem-solving, quick learning, and effective presentation skills.
